

# Forest Stewardship Information Resources CD

---

## About This Disk—Index of files on the CD

The files on this CD provide information from various sources that will help you manage your property more effectively. For further assistance with this CD, contact Sherry Cooper, [slcooper@nature.berkeley.edu](mailto:slcooper@nature.berkeley.edu), 530-224-4902.

Adobe Acrobat can be downloaded free from the Internet at <http://www.adobe.com/products/acrobat/>

**Assessment Tools**—These documents are designed to help you do your own property assessments.

**Fire**—UC ANR publications on fire written by Stephen L. Quarles, UCCE Advisor, UC Forest Products Lab, Richmond <https://secure.donet.com/firewise/audiovisual/index.htm>. Fire Safe information including a videotape—*Preventing Home Ignitions*. Some of the material is free (S&H charges) and some must be purchased.

*Home and Fire Magazine*—<http://www.homeandfire.com>. Sample issue is on CD. *Home & Fire* is a quarterly magazine \$9.49 for 4 issues, \$14.99 for 8 issues

**Forest Practice Act and Rules (CDF)**—Forest Practice Rules & Act 2007. Adobe (PDF) file included on CD or visit the website [http://www.fire.ca.gov/rsrc-mgt\\_forestpractice.php](http://www.fire.ca.gov/rsrc-mgt_forestpractice.php)

**Forest Stewardship Curriculum**—Produced by UCCE, these chapters provide in depth discussion of issues current to forest landowners in California (Adobe Acrobat – PDF files). *Final Copies will be available later in 2007 from <http://ucanr.org/pubs.shtml>. Sample chapters of a selection of the following are included on the CD.*

Introduction and Glossary	Forest Regeneration	Threatened Plants	Laws Part I
Stewardship Framework	Forest Wildlife	Exotic Pest Plants	Laws Part II
Forest Ecology	Forest Streams	Wildfire	Economics
Forest History	Riparian Vegetation	Forest Pests and Diseases	Taxation
Tree Growth	Forest Water Quality	Forest Roads	Technical Assistance
Vegetation Management	Fish	Stewardship Objectives	Professional Assistance

**Forestland Steward Newsletters**—Free newsletter subscription on various topics for landowners or download online. (Adobe Acrobat – PDF files). Newsletters to date are included on the CD or visit <http://ceres.ca.gov/foreststeward/html/newsletter.html>

**Idyllwild 102706**—PowerPoint presentations at the Julian (10/6/07) Lake Arrowhead (10/20/07), and Idyllwild (10/27/07) Forest Stewardship workshops.

## Integrated Hardwood Range Management Program (IHRMP), University of California

<http://danr.ucop.edu/ihrmp/> Oaks ‘n’ Folks newsletter and a series of short leaflets on oaks are available on-line on various topics. Additional research publications, references and resources for oak management are available.

**Miscellaneous Publications**—these and more are under the main directory “Forest Stewardship CD”

- Nursery List—CDF contact list for conifers, eucalyptus, oaks, trees and shrubs, and native grass, legume, and forbs
- Topographic Maps—Listing of USGS Topo Dealers in California
- Selecting Lumber and Lumber Substitutes for Outdoor Exposures
- Selecting the Proper Timber Harvesting Document
- Nonindustrial Timber Management Plans In California Report
- Glossaries of Forest Terms and Acronyms

**Pests**—These UC Pest Notes provide detailed recommendations for management of the following topics, Adobe Acrobat – PDF files) <http://anrcatalog.ucdavis.edu/specials.ihtml>

Integrated Pest Management	Deer	Field Bindweed	Oak Pit Scale
Anthraxnose	Dodder	Grasshoppers	Pitch Canker
Bark Beetles	Elm Leaf Beetle	Ground Squirrels	Pitch Canker FAQ
Bees and Wasps	Eucalyptus Long Horned Borer	Lyme Disease	Pocket Gophers
Common Knotweed	Eucalyptus Red Gum Lerp	Mistletoe	Poison Oak
Crabgrass	Eucalyptus Tortoise Beetle	Moles	Possums
Creeping Wood Sorrel		Mosquitoes	Psyllids

Rabbits	Russian Thistle	Sudden Oak Death	Wood Decay
Raccoons	Scotch, French, and	Thrips	Wood Wasps & Horntails
Rats	Portuguese Broom	Weed Management	Woodpeckers
Rattlesnakes	Sequoia Pitch Moth	Wild Blackberries	Yellow Star Thistle
Red Imported Fire Ants	Skunks	Wood Boring Beetles	

**Tree Pests and Tree Identification:** <http://www.ufe.org/ForesTree/index.lasso>

Pests and diseases are species specific. It is often necessary to know the type of tree before you can identify the pest or disease. This website will assist you in identifying it and your tree.

**Presentations**—PowerPoint and Adobe files of presentations given at workshops.

Choosing Professionals—Yana Valachovic	Forest Stewardship and Fire Ecology—Hugh Scanlon
Current Issues in Forest Management—Frieder Schurr	Introduction to Forest Stewardship—Richard Harris
Discovering The Ecology of Your Forest—Yana Valachovic	Inventory & Maps
Do I Need a Permit to Cut Trees—James M. Robbins	Planning—Richard Harris
Economics—John LeBlanc	Professionals Timeline
Family Estate Planning, Conservation Easements and Certification—Yana Valachovic	Road Fundamentals Tuolumne—Richard Harris
Fire Safe—John LeBlanc	Road Improvements Tuolumne—Richard Harris
Forest Stew Insect Disease Amador—Gary Nakamura	Roads Presentation—Richard Harris
Forest Steward Ecology Veg Amador—Gary Nakamura	RREA Fire Basics June—Gary Nakamura
ForStewEcologyTuolCalavJune2007—Gary Nakamura	Tree Growth and Soils
Forest Stewardship Planning Humboldt—Richard Harris	UC Forest Stewardship DFG—Ken Moore & Tony LaBanca
Forest Stewardship Humboldt—Gary Nakamura	Watersheds Tuolumne—Richard Harris
	Watersheds and Streams—Richard Harris

**Roads**—Various publications on Road Building and Maintenance

*A Landowner's Guide to Building Forest Access Roads.* USDA Forest Service. Access on the Internet at:

<http://www.na.fs.fed.us/spfo/pubs/stewardship/accessroads/> or open this file “accessroads.htm” to access via your Internet browser (you don't have to be connected to the Internet)

*Forest Road Contracting, Construction, And Maintenance For Small Forest Woodland Owners,* Oregon State University Research Contribution 35. Open this file “ForestRoadContractingRC35.pdf” to access via your Internet browser (you don't have to be connected to the Internet).

**Sierra Nevada Trees, Vegetation and Vertebrates**—Brochures developed by UC's Blodgett Forest Research Station on trees, vegetation and vertebrates that occur in the Sierra Nevada. Blodgett FRS is a 4,400 acre research station located within the American River watershed in El Dorado County on the western slope of the Sierra Nevada. Since 1933, it provides a location for wildland resource research, teaching, and the demonstration of forest management principles and practices. Contact (530) 333-4475 e-mail: [bfrs@nature.berkeley.edu](mailto:bfrs@nature.berkeley.edu) for more info on the Station.

**Silvics of North America**—To learn about habitat and life history for conifers and hardwoods.

*Silvics of North America,* United States Department of Agriculture, USDA Forest Service, Agriculture Handbook 654. Open this file “table\_of\_contents.htm” to access via your Internet browser (you don't have to be connected to the Internet).

**Taxes and Economics** (*Adobe Acrobat – PDF files*)—Various files regarding economics for your forest.

California Forest Incentives Program (CFIP) Guide	Income Opportunities in Special Forest Products
Forest Landowners Guide to Federal Income Tax	Timber Production Zone Land Values—2005
Estate Planning for Forest Landowners	

**Water & Fish**—Various publications and resources on streams, water issues and fish.

**Wildlife**—Publications on living with wildlife and information on threatened and endangered species and habitat conservation:

- *Cal. Dept. of Fish & Game, Habitat Conservation Planning Branch:* <http://www.dfg.ca.gov/hcpb/index.shtml>
- *Threatened & Endangered Species List:* [http://www.dfg.ca.gov/hcpb/species/t\\_e\\_spp/tespp.shtml](http://www.dfg.ca.gov/hcpb/species/t_e_spp/tespp.shtml)
- *RareFind 3* © Computerized inventory of California's rarest species and natural communities. Zipped file (double click to install software on your computer) is included on the CD or visit <http://www.dfg.ca.gov/whdab/html/rarefind.html>
- *Living with Wildlife*—Publications on living with bats, bears, coyotes, deer, mountain lions, rattlesnakes, and keeping wildlife at bay. Adobe file son CD or visit <http://www.dfg.ca.gov/coned/living.html> or [http://www.dfg.ca.gov/hcpb/species/nuis\\_exo/nuis\\_exo.shtml](http://www.dfg.ca.gov/hcpb/species/nuis_exo/nuis_exo.shtml) for info on invasive animals and plants
