

4-H

Poultry & Game Birds Proficiency

OVERVIEW

The 4-H Poultry & Game Birds Proficiency program helps you learn what you need to know about your 4-H project. Your project leader will assist you in setting and achieving your goals. Through your project, you will learn animal care basics, good management practices and record keeping. You will also learn about the size and scope of the animal industry as it relates to your project.

There are many resources to help you learn more about your project:

- ◇ The University of California Davis has free resources available online by visiting: <http://anrcatalog.ucdavis.edu/4HYouthDevelopment/>. This site lists a variety of project materials and resources recommended for use in your project.
- ◇ The Del Norte County 4-H Resources and Lending Library at our county 4-H Office includes other books, dvds, and reference materials that can be checked out by members and leaders.
- ◇ Check to see if there are organizations in your community that conduct educational activities and shows. Local artists can be an excellent source of help and information.

There are five levels in the Project Proficiency Program. You may choose how many levels you wish to complete:

- ◆ Level I - "Explorer", you begin to learn about many different aspects of raising poultry and game birds.
- ◆ Level II - "Producer", you practice and refine the many skills involved in learning about and raising poultry and game birds.
- ◆ Level III - "Consumer", you become an experienced raiser of poultry and game birds.
- ◆ Level IV - "Leader", allows you to show your own leadership potential.
- ◆ Level V - "Researcher", you carry out a demonstration or experiment on some aspect of poultry and game birds, and prepare a paper or portfolio.

As you work through the proficiency program, your leader will date each skill item as you complete it. When all items in a proficiency level are completed, your leader will sign the Certificate of Achievement.

POULTRY & GAME BIRDS

Level I - Explorer

Date
Completed

Name: _____

- _____ 1. Name the parts of chicken or other types of birds.
- _____ 2. Describe how different types of facilities best accommodate different breed types. Example: feather legged, clean legged, waterfowl.
- _____ 3. Describe Fowl Pox, its prevention and cure.
