

Invasive Weeds Resource List

El Dorado County Invasive Weeds Management Group

For further information contact:

El Dorado County Department of Agriculture (530) 621-5520

f Brochures/Booklets

- **Selected Invasive Weeds of the Central Sierra Nevada – A Field Guide:** Descriptions and photos of 30 invasive weeds to know and watch for in the Sierra Nevada Foothill region. Pocket booklet available at UCCE (530) 621-5502 or on-line at: <http://cecentralsierra.ucanr.edu/files/87472.pdf>
- **Managing Yellow Starthistle – A Landowners Guide:** Yellow starthistle biology, management, control methods and Landowner Weed Management Strategic Plan workbook. Available for download in .pdf format from University of California Cooperative Extension – El Dorado County website at: <http://cecentralsierra.ucanr.edu/files/87468.pdf>
Or call UCCE (530) 621-5502 to request a hard copy of the guide.
- **Getting a Handle on Broom Booklet:** Identification and control methods for Scotch, Spanish and French brooms. Available for download in .pdf format from University of California, Agriculture and Natural Resources <http://anrcatalog.ucdavis.edu> (go to “Pests and Diseases” and then “Weeds”). Free resource.
- **Perennial Pepperweed Brochure:** “Perennial Pepperweed (*Lepidium latifolium*): Foreign Invader in California’s Wildlands.” Available in text format at <http://www.ipm.ucdavis.edu/PMG/PESTNOTES/pn74121.html>. Brochures available at <http://wric.ucdavis.edu/PDFs/perennial%20pepperweed%20WRIC%20leaflet%2002-1.pdf>
- **Wild Blackberries:** Identification of blackberries and control methods. Available for download from University of California Agriculture and Natural Resources – Statewide Integrated Pest Management Program at: <http://www.ipm.ucdavis.edu/PDF/PESTNOTES/pnwildblackberries.pdf>
- **Poison Oak:** Biology and management. Poison Oak is not generally considered an invasive weed, but it certainly can be a nuisance. Publication available for download from University of California Agriculture and Natural Resources – Statewide Integrated Pest Management Program at: <http://www.ipm.ucdavis.edu/PDF/PESTNOTES/pnpoisonoak.pdf>

f Publications

- **Cal-IPC News, by the California Invasive Plant Council.** A quarterly newsletter containing articles related to invasive plants. Available for download in pdf format at <http://www.cal-ipc.org/resources/news/> - Free resource.

f

Websites

- **University of California Cooperative Extension Weed Research and Information Center:** Species descriptions, educational resources, and links to reliable weed science web pages. Includes information on the university's weed research programs. Internet address: <http://wric.ucdavis.edu>.
- **El Dorado County Invasive Weed Information and Resources:** See the UCCE – El Dorado County Natural Resources website, including publications, program links and local invasive weed group information, at: [http://cecentralsierra.ucanr.edu/Invasive Weed Management Program/](http://cecentralsierra.ucanr.edu/Invasive_Weed_Management_Program/)
- **California Invasive Plant Council:** The online headquarters of Cal-IPC, a nonprofit organization dedicated to enhancing awareness and control of invasive plants in California. Web resources include educational materials, weed awareness event announcements, a list of invasive plants ranked by impact in California, and a directory of links to other weed-related web pages. Internet address: www.cal-ipc.org
- **Calflora:** An online database of native and introduced plants in California's wildlands. Includes ecological and distributional information about nearly 8,000 species. Internet address: <http://www.calflora.org/index0.html>.
- **Pond Management, Aquaculture and Aquatic Weed Control:** Learn how to improve and maintain your farm pond, select recreational fish species and control aquatic weeds at this University of California Davis website. Internet address: <http://aqua.ucdavis.edu> .
- **The Center for Invasive Plant Management:** Information on ecological management of weed species, with particular emphasis on education, tools, and research. Includes links to funding sources and publications related to weed management. Internet address: www.weedcenter.org.
- **USDA PLANTS Database:** An information center with descriptions and distributional data about plant species found in the U.S. Includes information specific to invasive plants and allows public input regarding species distributions. Internet address: <http://plants.usda.gov/>.
