

## List of Environmental Laboratories for Soil Testing in Northern California

| Laboratory                                      | City       | Website   | Certified ELAP / NELAP? | Heavy metals           | Pesticides | TPH | PAH | VOC | Asbestos | Soil Fertility | Courier pickup |
|---|------------|---|-------------------------|------------------------|------------|-----|-----|-----|----------|----------------|----------------|
| Datalab San Jose                                | San Jose   | <a href="http://www.datalabsj.com/index.html">http://www.datalabsj.com/index.html</a>                 | Yes                     | x                      | x          | x   |     |     |          |                |                |
| Torrent Laboratory                              | Milpitas   | <a href="http://www.torrentlab.com/">http://www.torrentlab.com/</a>                                   | Yes                     | x                      | x          | x   |     |     |          |                |                |
| UC Davis Analytical Lab                         | Davis      | <a href="http://anlab.ucdavis.edu/">http://anlab.ucdavis.edu/</a>                                     | No                      | x                      |            |     |     |     | x        |                |                |
| Waypoint Analytical                             | San Jose   | <a href="http://www.waypointanalytical.com/">http://www.waypointanalytical.com/</a>                   | No                      | x                      |            |     |     |     | x        |                |                |
| Caltest analytical laboratory                   | Napa       | <a href="https://www.caltestlabs.com/Home.aspx">https://www.caltestlabs.com/Home.aspx</a>             | Yes                     | x                      | x          | x   |     |     | x        | x              |                |
| McCampbell Analytical, Inc.                     | Pittsburg  | <a href="http://www.mccampbell.com/">http://www.mccampbell.com/</a>                                   | Yes                     | x                      | x          | x   | x   |     |          | x              |                |
| Delavalle Laboratory, Inc.                      | Fresno     | <a href="http://www.dellavallelab.com/index.html">http://www.dellavallelab.com/index.html</a>         | Yes                     | x                      |            |     |     |     | x        |                |                |
| TestAmerica Inc.                                | Pleasanton | <a href="http://www.testamericainc.com/">http://www.testamericainc.com/</a>                           | Yes                     | x                      | x          | x   | x   | x   |          | x              |                |
| Delta Environmental Laboratories                | Benicia    | <a href="http://deltaenvironmentallab.com/index.html">http://deltaenvironmentallab.com/index.html</a> | Yes                     | x                      | x          | x   | x   | x   |          |                |                |
| Patriot Environmental Laboratory Services, Inc. | San Jose   | <a href="http://www.patriotlab.com/">http://www.patriotlab.com/</a>                                   | Yes                     | x (Lead in paint only) |            |     |     |     | x        |                |                |
| Curtis & Tompkins                               | Berkeley   | <a href="http://curtisandtompkins.com/">curtisandtompkins.com/</a>                                    | Yes                     | x                      | x          | x   | x   | x   |          |                | x              |

### Important considerations when working with an environmental lab:

- Talk to a lab about your project before collecting samples as they can help you defining your sampling plan and analytical program. Some labs also have specific requirements about how samples should be collected.
- Some labs send you containers for collecting samples at no cost
- Some labs offer a courier service to pick up the samples on the project site at no cost.
- Before choosing an analysis, check if there is a screening level (SL) for this substance and how the substance needs to be reported to be compared with it. Ask your lab about it.
