

School Notification

2018 Central Coast Pepper Production Workshop

Santa Clara County Department of Agriculture

Kristian Barbeau

April 4, 2018

Regulation

- Regulations apply to pesticide applications made for the production of an agricultural commodity within 1/4 mile of public K-12 schools and licensed child day care facilities, except family day care homes (collectively referred to as schoolsites)
- Pesticide application restrictions will apply Monday through Friday, from 6:00 a.m. to 6:00 p.m., within a specified distance of a schoolsite.

Effective January 1, 2018:

- Regulations apply to pesticide applications made for the production of an agricultural commodity within ¼ mile of public K-12 schools and licensed child day care facilities, except family day care homes (collectively referred to as schoolsites)
- Pesticide application restrictions will apply Monday through Friday, from 6:00 a.m. to 6:00 p.m., within a specified distance of a schoolsite:
 - Two types of restriction distances: ¼ mile (1,320 feet) or 25 feet, depending on the type of application equipment used and type of pesticide applied (some application types are prohibited by labels or do not occur)

Application Equipment Type	Minimum Distance to Schoolsite by Equipment and Pesticide Type			
	Dust	Fumigant	Granule	All Other Pesticides
Airblast Sprayer	¼ mile	Prohibited	Doesn't occur	¼ mile
Aircraft	¼ mile	Prohibited	¼ mile	¼ mile
Backpack Sprayer	¼ mile	Prohibited	None	None*
Bait Station	None	Prohibited	None	None
Ground-Rig Sprayer	¼ mile	¼ mile	None	25 feet
Hand Pump Sprayer	¼ mile	¼ mile	None	None
Soil Injection	None	¼ mile	None	25 feet
Sprinkler Chemigation	Doesn't occur	¼ mile	Doesn't occur	¼ mile
All Other Equipment	¼ mile	¼ mile	None	25 feet

*Backpack sprayers that incorporate an airblast sprayer to apply "other" pesticides are prohibited within ¼ mile.

- Exceptions to application restrictions: The prohibitions do not apply if school classes are not scheduled for the day of application or the child day care facility is closed during the entire day of the application. This allows applications during the day on holidays and school breaks
- An option for an agreement between a schoolsite, property operator, and County Agricultural Commissioner with alternative application restrictions that provide the same or a greater level of protection as provided by the prohibitions
- Field fumigations within ¼ mile of a schoolsite must be completed at least 36 hours before the start of classes
- An annual notification by property operators to schoolsites and County Agricultural Commissioners by April 30 that includes contact information and a list of all pesticides expected to be used within ¼ mile of a schoolsite during July through June
 - A new grower (through purchase or lease of a field) must provide the first notification within 30 days of assuming control of the property
- CalAgPermits is the suggested method that property operators use to develop and submit the notifications

ANNUAL NOTIFICATION

OF PESTICIDES USED NEAR SCHOOLS AND CHILD CARE CENTERS

Waterloo Elementary

Attn: Ms Shannon Roberson
7007 N. Pezzi Road
Stockton, CA 95215

10/20/2017 1:44:07 PM

This notification is informational only. California regulations require a farmer to provide annual notification of the pesticides expected to be applied to agricultural crops within ¼ mile of a public K-12 school or a licensed child care center (schoolsites). This notification pertains to the farmer listed below. The pesticides listed are expected to be used during the July 1, 2017 – June 30, 2018 period. If a farmer needs to use a pesticide that is not included on the list, schoolsites will be informed at least 48 hours prior to use.

California regulations also prohibit specific pesticide applications to agricultural crops within the following distances of a schoolsite during Monday through Friday, from 6:00 a.m. to 6:00 p.m. which include:

- Applications with potentially higher drift are prohibited within ¼ mile (1,320 feet) of a schoolsite, such as fumigations and applications using aircraft.
- Applications with lower drift are prohibited within 25 feet of a schoolsite, such as most applications using a tractor.
- Applications with negligible drift have no distance requirement, such as applications using a hand sprayer or within a greenhouse.
