4-H Youth Development Program

4-H Service Learning - Do YOU want to make a difference?

Who – Give A Hoot! Owl Nesting Box Project is a Service Learning Project created and organized by 4-H member Seralyn Colton, of Lockwood 4-H. We invite you to help build Owl nesting boxes and increase youth awareness on the balance of the wildlife environment.

What – Our goal is to build 20 owl nesting boxes for local vineyards, ranchers, and farmers to promote natural rodent control.

Why – To provide owls with SAFE nesting place to raise their young, to help to reverse habitat reduction and SAVE the owls.

How – We will provide the tools and equipment and the work day.

You provide the helping hands. Bring your friends and family, and work, learn about owls, and have FUN!

EDUCATIONAL * HAND-ON EXPERIENCE * LEARN BY DOING * LIVE PRESENTATION

Saving Owls benefits your community What do YOU get out of this? More owls surviving to adulthood means:

- Natural rodent control – and reduction of the amount of pesticides used
- Fewer crops ruined, less disease spread to livestock from rodents
- More profit for hardworking farmers and ranchers, and... more FOOD for us!

We need both youth and adult volunteers who can assist with the organization and supervision of youth workers. If you are interested, please come and “Give a HOOT” ... help make this event a success!

This project will use two work days to construct a total of 20 owl nesting boxes. We will work in teams to complete each box, and all volunteers will receive refreshments. If you are interested in being a part of this project, please ... GIVE A HOOT! RSVP today!
