

BIG DIG DAY!

As of 11:59 on #BigDigDay 2019 your generosity helped raise over \$98,585 for UC Cooperative Extension, Statewide programs, and Research Centers that make up the UC ANR network!

Donations we received from the day will support programs improving the wellness of Californians and our state.

What does it mean to #DigDeep investing in the community?

- More youth will become true leaders through 4-H programs in their counties.
- More research will be done to best manage natural resources, learn to prevent devastation from pests and disasters, and produce more bountiful food supplies across the state.
- More families will have access to nutrition education.
- More volunteers will become the most trusted resources of information about home gardening and food preservation.
- And so much more!

With your support, we invest in our communities—to be a neighbor in times of need, to bring practical, trusted answers to residents across our state.

Again, thank you for your generosity and supporting a healthier California. We look forward to sharing information and progress with you!
