

# Cal Ag Permits

Willo Vieira

Plumas-Sierra Counties Agricultural Commissioner

## Logging In To Your Account:

- Using your computer and web browser, navigate to the CalAgPermits web site at <http://www.calagpermits.org>
- Enter your **“User Name”** and **“Password”** in the boxes provided.
- Then click **“Log In”**
- From here you will be taken to the **Home Page**, which is the central location of the website.
- On the next page of this handout we will take a look at the **Home Page** and explore some of the most important and commonly used features of the CalAgPermits Web-User system.

## Navigating the Home Page:

The Home Page is the most important and frequently used page on the CalAgPermits website. From here you can access all of the primary features of the system. This overview will help you take full advantage of everything CalAgPermits has to offer.

As you explore the rest of this website remember that you can always return to the Home Page from most other pages simply by clicking on "[Home](#)" at the top of the page.

If you are a Licensed Commercial Applicator and normally file **Single Job Pesticide Use Reports** (aka **7 Day PURs**) click here.

The "**Monthly Report for Grower Applications**" is the report most often used by growers. It should be selected when reporting pesticides used on agricultural commodities such as wine grapes, olives and other fruits and vegetables.

To view or print your submitted **Pesticide Use Reports** or "**Saved Drafts**" click on the icon for each report type.

To view your permit, select your business name from the green drop down menu, then click "**View Permit.**"

Pesticide applications to buildings and other structures should be reported on the "**Structural Monthly Summary report (MSPUR).**"

Non-agricultural, non-structural pesticide applications (such as landscape, waterway and SO2 applications) should be reported on the "**Non-structural MSPUR.**"

Pest Control Businesses that are required to submit **Zero Use MSPURs** can click here.

Permit holders who use 3<sup>rd</sup> party management tools such as *Lady Bug*, *Tiger Jill* or *AgCode* can click on "**Upload pre-formatted CEDTS data**" to find, upload and send their PUR files directly to the Plumas County Agricultural Commissioner's office.

- If your permit requires that you submit **Notices of Intent** you can start, submit, view and print your NOIs and "Saved Drafts" in this section.

- For more detailed WebUser Instructions click on the "**Help**" icon at the top right corner side of the Home Page.

The screenshot shows the CalAgPermits Home Page. At the top is an orange navigation bar with the CalAgPermits logo on the left and the word "Napa" on the right. Below the logo is a navigation menu with links: Home, Product Lookup, PUR/NOI Query, RMP - Op-D, Pesticide Use Report, and Help. Below the navigation bar, the user is logged in as "FRIDAY FERRIS" and has options to "Change Password", "Change Q and A", and "Logout". The main content area is titled "Welcome" and contains several sections:

- Ag PURs:** Includes links for "Enter a new 7 Day Job Report for Commercial Applicators", "Enter a new Monthly Report for Grower Applications", and "Enter a new Zero Usage Report".
- MSPURs:** Includes links for "Enter a new Structural Monthly Summary report (MSPUR)", "Enter a new Non-structural MSPUR", and "Enter a new Zero Usage Report".
- NOIs:** Includes a link for "Enter a new Notice of Intent".
- Permits:** Includes a "Select Permit for viewing" dropdown menu showing "FRIDAY FERRIS" and a "View Permit" button.
- CEDTS:** Includes a link for "Upload pre-formatted CEDTS data".
- FAQs:** Includes a link for "Under Construction".
- My Licenses and Certifications - FRIDAY FERRIS:** A table with columns: License/Cert. #, Type, Expiration, and Registered On. The table contains one row: "PAC 2002", "PAC", and an empty expiration date.
- Useful Links:** Includes links for "California Department of Pesticide Regulation", "Pesticide Use Reporting (PUR) Forms", "Licensing and Certification Program", "DPR News and Publications", "Restricted Materials Use Requirements", "CalAgPermits Contact Information", and "Contact Tech Support".

Arrows from the text on the left point to various elements on the page: "Home" in the navigation bar, "FRIDAY FERRIS" in the dropdown menu, "Enter a new 7 Day Job Report for Commercial Applicators", "Enter a new Monthly Report for Grower Applications", "Enter a new Structural Monthly Summary report (MSPUR)", "Enter a new Non-structural MSPUR", "Enter a new Zero Usage Report", "Select Permit for viewing" dropdown menu, "View Permit" button, "Upload pre-formatted CEDTS data", "Under Construction", and the "Help" icon in the top right corner.

- Start at the top of the page and fill in all of the orange boxes. Most of the green boxes are optional.

- If a box has a small arrow (v), you must select (click on) your correct information from the drop down menu. You can also type information into the box to limit your options, then select the correct entry.

- Start by selecting your **“Operator ID/ Permit #”** from the drop down menu. Many of the grey fields such as “Operator” and “Address” will be populated automatically with information from your permit.

- Type or use the calendar icon to fill in your first **“Application Date”** and **“Time”** for the month. The “Report Month/ Year” field will be filled in automatically.

**Monthly Pesticide Use Report - Production Ag Growers/Operators only**

Save Line - New Product Save Line - New Date Save Line - New Site/Date Clear Line

be filled in automatically.

- Once all of the required information has been filled in, you need to save each line by clicking on one of the three white **“Save Line”** buttons.

- If the line is not filled out completely or it has obvious errors, an error message will pop up. Always follow the prompts and correct mistakes before saving the line. Uncorrected mistakes result in automatic drafts.

- Saved lines will appear in the lower green area. From there the lines can be Edited or Deleted before the report is submitted.

- Be sure to include your name and date of submission.

- Each time you click a **“Save Line”** button, the program begins filling out a new line for you. Once you have filled out and saved every line of the report click **“Clear Line.”**

- Once all of the lines have been correctly added to the form, send the completed report to Plumas County as an official document by clicking **“Submit.”** The report will also be saved automatically and available for you to review at anytime.

- NOTE: *If you are not finished with the report and want to continue working on it at a later time, click **“Save Draft.”** Remember, however, this does NOT submit the report to the County. You will have to go back and do that later.*

The screenshot shows a software interface for creating a report. At the top, there are four buttons: "Save Line - New Product", "Save Line - New Date", "Save Line - New Site/Date", and "Clear Line". Below these is a table with columns: "Line", "Date/Time Applied", "Site ID", "Commodity Treated", "Total Planted / Units", "Total Treated / Units", "EPA / Calif. Reg. From Label", "No.", "Product Name", "Appl. Meth", and "Total Used / Unit". The table contains two rows of data. Below the table are two dropdown menus labeled "Report Prepared By:" and "Date:". At the bottom right, there are three buttons: "Submit", "Save Draft", and "Cancel". Arrows from the text point to the "Save Line" buttons, the "Clear Line" button, the "Report Prepared By:" and "Date:" dropdowns, and the "Submit", "Save Draft", and "Cancel" buttons.

Line	Date/Time Applied	Site ID	Commodity Treated	Total Planted / Units	Total Treated / Units	EPA / Calif. Reg. From Label	No.	Product Name	Appl. Meth	Total Used / Unit
2	1/17/2012 4:00 PM	4C 1	29143-01 GRAPE, WINE	0.5 ACRES	0.5 ACRES	7009 01 AA 2655		SULFUR DF	G	1 Pounds
1	1/12/2012 7:00 AM	4C 1	29143-01 GRAPE, WINE	0.5 ACRES	0.5 ACRES	280 2034 AA		ROUNDUP SUPER CONCENTRATE WEED & GRASS KILLER 1	G	2 Ounce

So.....

That's great, but it never works for me when I do it.

Let's do one together.

# Getting Started

- Your spray log book.
- The EPA Registration Number for each pesticide used.
- The CA EPE Registration Number for each pesticide used.
- Yes! You need to report restricted materials, non-restricted materials, organic materials and adjuvants.
- A copy of your permit so you have the site names and correct number of acres.
- Find you user name and password.
- Acquire the CalAgPermits website. [www.calagpermits.org](http://www.calagpermits.org)

# The Log-in Page

**CalAgPermits**

**Log In**

# THE NOI

What is it?

Who needs it?

How to do it?

Caution flags?

# What is it?

The Notice of Intent is a California Environmental Quality Act (CEQA) equivalent document. The Notice of Intent was established so you would not have to file a CEQA report every time you spray a restricted material. This saves you thousands if not millions of dollars. Please be very respectful of this privilege as it is under serious scrutiny at this time.

# Who needs it?

- Anyone who applies a California Restricted Material. Keep in mind that not all Federally Restricted Materials are California Restricted Materials. LambdaStar is an example of this.
- The most commonly applied restricted materials in this area are 2,4-D, 2,4-DB, Paraquat, Dicamba, zinc phosphide, aluminum phosphide, and strychnine.
- **When in doubt call us! (530) 283-6365**

# How to fill it out.

- Start at the top of the page and fill in all of the orange boxes. Many of the green boxes are optional.

- If a box has a small green arrow, you can click on it and select your information from the drop down menu. Click the arrow for **“Operator ID/ Permit #”** and select your information.

- Enter the **“Date/Time of Proposed Application.”**

- As you select items from the drop down menus and type in your information many of the other fields (**“Permittee/ Property Operator,”** etc.) will be populated automatically with information from your permit.

- You must include the **“Pesticide Product”** (w/ EPA #) and the **“Rate of Application.”**

- Once all of the required information has been filled in, you need to save each line by clicking on the **“Save Line”** button.

- If the line is not filled out completely or has obvious mistakes, an error

Save Line Clear Line

- If the line is not filled out completely or has obvious mistakes, an error message will pop up. Always follow the prompts and correct mistakes before saving the line. Uncorrected errors result in automatic drafts.

- Saved lines will appear in the lower green area. From there the line can be Edited or Deleted before the NOI is submitted.

- Be sure to include your name and date of submission.

- Once all of the lines have been correctly added to the form, and you are ready to send the completed NOI to Plumas County as an official document, click **“Submit Report.”** The notice will also be saved automatically and available for you to review at anytime.

- *NOTE: If you are not finished with the report and want to continue working on it at a later time, click **“Save Draft.”** Remember, however, this does NOT submit the report to the County. You will have to go back and do that later.*

The screenshot shows a web interface for submitting a report. At the top, there are two dropdown menus labeled "choose one...". Below them are "Save Line" and "Clear Line" buttons. A table with a green header contains the following columns: "Line", "Product", "Label #", "Rate", "Dilution", "Total Product Used", and "Target Pest". The table body is empty, displaying "No records to display." Below the table are two input fields: "Submitted By:" and "Date/Time:". At the bottom right, there are three buttons: "Submit Report", "Save Draft", and "Cancel". Arrows from the text on the left point to the "Save Line" button, the table header, the "Submitted By:" field, the "Date/Time:" field, the "Submit Report" button, and the "Save Draft" button.

# Caution Flags!!!!

These are items that can result in denial of your NOI.

- Submitted in under 24 hours from your date and time of application. These are flagged directly to our email this year. Will probably be extended to 48 hours in 2023!
- Use of a chemical not registered in California. **Be especially cautious if you are buying from Nevada!**
- Chemical not on your list of chemicals submitted to the schools.
- Chemical not on your permit.
- Chemical not listed on your application site.

# Good News

Once you have submitted your NOI you have 4 days in which to complete your spraying!

# Have a Question??

Contact us – (530) 283-6365. Anyone on the office can help you.

If I am within cell service you can contact me on weekends and in the evenings. (530) 251-7150.

# Cal School Notify

Schools Requirements

California has adopted regulations that address agricultural pesticide applications near public K-12 schools and licensed child day care centers (collectively referred to as schoolsites). These regulations provide minimum distance standards for certain agricultural pesticide applications near schoolsites and require annual notifications to schoolsites. The goal is to reduce the chances of unintended pesticide exposure to children and increase communication between growers, County Agricultural Commissioners, and schoolsites

# NOTE:

These regulations apply to **ALL PESTICIDES!!!!!!**

Does it apply to Restricted Materials? **YES!**

Does it apply to Non-Restricted Materials? **YES!**

Does it apply to Certified Organic Pesticides? **YES!**

If your spray site falls within a school buffer zone you must notify the school of any and all pesticides used.

# DO YOU FARM NEAR A SCHOOL OR DAYCARE CENTER?

## DPR's best practices for compliance with Pesticide Use Near Schools regulation if all or a portion of your fields fall within a school buffer zone

California's Pesticide Use Near Schools regulations include application restrictions for pesticide use occurring within a quarter mile of public K-12 schools and many licensed child day care facilities.

The regulations also include specific reporting requirements. This data is reflected in the Department of Pesticide Regulation's annual Pesticide Use Reports, which are an important tool for DPR to track compliance with the schools regulations, and also help ensure transparent communication to the public.

However, tracking both compliance and gathering accurate data on the use of pesticides near schoolsites can be challenging when fields fall only partially within the schoolsite buffer zone. Here are tips for pesticide use reporting for fields near schoolsites.

1

Ensure you are in compliance with Pesticide Use Near Schools regulations. For detailed information, see DPR's website: <https://bit.ly/3qNed7y>

2

For fields that fall partially within a buffer zone, consider obtaining a separate Site ID for the portion of the field within the buffer to allow more pest control options for the portion of the field outside the buffer zone.

3

Submit accurate Pesticide Use Report information, especially application start and end times for sites within a schoolsite buffer zone.

- Pesticide application restrictions will apply Monday through Friday, from 6:00 a.m. to 6:00 p.m., within a specified distance of a schoolsite:
  - Two types of restriction distances: ¼ mile (1,320 feet) or 25 feet, depending on the type of application equipment used and type of pesticide applied (some application types are prohibited by labels or do not occur)

Application Equipment Type	Minimum Distance to Schoolsite by Equipment and Pesticide Type			
	Dust	Fumigant	Granule	All Other Pesticides
Airblast Sprayer	¼ mile	Prohibited	Doesn't occur	¼ mile
Aircraft	¼ mile	Prohibited	¼ mile	¼ mile
Backpack Sprayer	¼ mile	Prohibited	None	None*
Bait Station	None	Prohibited	None	None
Ground-Rig Sprayer	¼ mile	¼ mile	None	25 feet
Hand Pump Sprayer	¼ mile	¼ mile	None	None
Soil Injection	None	¼ mile	None	25 feet
Sprinkler Chemigation	Doesn't occur	¼ mile	Doesn't occur	¼ mile
All Other Equipment	¼ mile	¼ mile	None	25 feet

*\*Backpack sprayers that incorporate an airblast sprayer to apply "other" pesticides are prohibited within ¼ mile.*

- Exceptions to application restrictions: The prohibitions do not apply if school classes are not scheduled for the day of application or the child day care facility is closed during the entire day of the application. This allows applications during the day on holidays and school breaks

# Whose responsibility is it?

- It is the agricultural grower/applicator's responsibility to see that the annual reporting is completed.
- It is the agricultural grower/applicator's responsibility to maintain and update the report as needed during the season. This should occur 48 hours before the application of a pesticide that was not included on the original list submitted.

# Need Help???

Call us! We are here to help you through the process. Once you have done it a few times it becomes less intimidating.

(530) 283-6365
