

4-H Archery Proficiency Program A Member's Guide

OVERVIEW

The 4-H Archery Proficiency program helps you learn what you need to know about your 4-H project. Archery is an exciting project. Through this project, you will better understand the functions and safety that goes along with handling archery equipment.

There are many resources to help you learn more about your project:

- The University of California Davis has free resources available online by visiting: <http://anrcatalog.ucdavis.edu/4HYouthDevelopment/>. This site lists a variety of project materials and resources recommended for use in your project.
- The Solano County 4 - H Resources and Lending Library at our county 4-H Office includes other books, videos, and reference materials that can be checked out by members and leaders.
- Stores that sell archery supplies may offer classes and other educational activities as well as equipment. Many communities have local archery groups or clubs that can be a great resource to you.

There are five levels in the Project Proficiency Program. You may choose how many levels you wish to complete:

- ◆ Level I – “Explorer”, you begin to learn about many different aspects of your archery project.
- ◆ Level II – “Producer”, you practice and refine the many skills involved in archery.
- ◆ Level III – “Consumer”, you become experienced in archery.
- ◆ Level IV – “Leader”, allows you to show your own leadership potential.
- ◆ Level V – “Researcher”, you carry out a demonstration or experiment on some aspect of archery.

As you work through the proficiency program, your leader will date each skill item as you complete it. When all items in a proficiency level are completed, your leader will sign the Certificate of Achievement.

ARCHERY

Level I - Explorer

Date
Completed

- _____ 1. Name five safety rules when shooting.
- _____ 2. Identify parts of a bow.
- _____ 3. Identify parts of an arrow.
