

UC Master Gardeners of Santa Barbara County
in collaboration with Mesa Harmony Garden present:
FREE IN-PERSON GARDEN WORKSHOP

Late Fall and Winter are ideal times to plant California Native Plants. Planting right before the rains begin provides time for your selections to establish themselves before the next Summers heat. The wide diversity of native species gives you the opportunity to enjoy a wide variety of flower color, leaf shape and texture, and plant height.

Master Gardeners Janet Rogers and Pam Lombardo will discuss a research-based presentation which includes; easy to grow varieties, planting techniques, care and maintenance, and more.

*Join us to plan your
California Native Plant garden.*
