

# THIRD THURSDAYS: THINGS FROM THE FIELD

## Groundwater and SGMA in the Northern Sacramento Valley

Join Dr. Thomas Harter, UC Davis Professor and Specialist in Cooperative Extension, as he breaks down basic groundwater and water balance concepts in relation to SGMA. He will also cover Groundwater Sustainability Agency (GSA) and Groundwater Sustainability Plan (GSP) and recharge concepts.

Lisa Hunter, Water Resources Manager of Glenn County and Program Manager of Glenn Groundwater Authority, will review some of the work done on the local GSPs, and provide status updates on their current standing in the process.

## ROUND TABLE

After the overview of groundwater and SGMA topics, we'll open the floor to discuss issues and concerns from the field. Bring your questions, observations, photos and more for an open forum of growers, PCAs, industry members and farm advisors..

### WHEN

- Thursday, February 20, 2025
- 11:30 a.m. - 1:30 p.m.

### WHERE

**Glenn County Farm Bureau Office Meeting Room**

831 5th Street, Orland, CA 95963
